HAFIDZ ASMAR MEISANDA

+62 831 2504 3525 | asmarhafidzmei@gmail.com | Bandung, Indonesia | LinkedIn | GitHub | Portfolio

Informatics Management student at Politeknik Praktisi Bandung, expected to graduate in 2027, with hands-on experience in full-stack web development through an internship at Ocean Young Guards and building Webkeun.id. Experienced in developing web applications using Next.js, React, Express.js, and PostgreSQL. Maintains a 3.84 GPA while running a web development service alongside studies. Seeking a Full-stack Developer internship to apply and further strengthen these skills in production web projects.

WORK EXPERIENCE

Webkeun.id **Oct 2026 – Present**
Founder & Full-stack Developer *Bandung, Indonesia*

- Founded a web development service for digital wedding invitations, small business websites, company profiles, and personal portfolios.
- Launched a digital invitation product with 11 themes and 3 pricing packages; manage client consultation, development, domain setup, hosting, and launch.
- Developed 5 business website templates for rental, coffee, logistics, photography, and laundry businesses, expanding the catalog to 16 themes in total.
- Secured the first 2 paying clients within the first month of launch, delivering digital invitations in 3–5 days and websites in 5–10 days.

Ocean Young Guards **Jan 2026 – Jul 2026**
Full-stack Developer Intern · Remote, Full-time Internship certificate

- Developed a React and Tailwind CSS website and admin dashboard for events, volunteers, coupons, and payment verification; the platform is awaiting launch.
- Built an Express.js REST API with 8 endpoints using Sequelize and PostgreSQL for enrollment and payment review.
- Implemented JWT authentication, document uploads, search, and pagination for the admin and user flows.
- Tested endpoints in Postman and collaborated with another developer in a 2-person team through Git branches.

FEATURED PROJECTS

Webkeun.id — Web Development Platform webkeun.id
Next.js, TypeScript, Tailwind CSS, Supabase (PostgreSQL), Vercel

- Built personalized guest links, RSVP, guest wishes, and digital envelopes, with an authenticated admin dashboard for guest management, Excel import, and WhatsApp invitation sharing.
- Configured Supabase Row-Level Security (RLS) for guest data access, supporting 2 guest types: registered guests with assigned seating and general guests.

MyLife — Personal Life Management Web App mylife-web-eta.vercel.app
Next.js, TypeScript, Express.js, Prisma, PostgreSQL (Neon), NextAuth.js, Tailwind CSS, Cloudinary

- Built a full-stack application with 7 modules (Finance, To-Do, Calendar, Journal, Memories, Goals, and Grades), bilingual support (ID/EN), and light/dark mode.
- Secured the REST API with JWT, bcrypt, Zod validation, Helmet, CORS, and rate limiting, and built all data charts from scratch with SVG without a chart library.

ORGANIZATIONAL EXPERIENCE

Informatics Management Student Association (HIMAMI) **2024 – Present**
Head of Communication and Information Division (KOMINFO)

- Led Instagram content design and activity updates for the association.
- Designed and built the association's official website from scratch using HTML, CSS, and JavaScript, featuring board member profiles, an event agenda, and a photo gallery.
